[Don't miss the next virtual PLA 3.0 Training in Europe, Middle-East, Africa](#)

Would you like to know what you can do with our brand new Dose-Response Analysis Package? The virtual PLA 3.0 Super User Training is a comprehensive training about the most important features of PLA 3.0 and how to work with them most effectively. The training is a mixture of presentation, exercises, and discussion. It is valuable for both new and experienced users.

The timing of the class allows participation within office hours in this regions

**Book now | PLA 3.0 Super User
Training | May 10-11**

**Book now | PLA 3.0 Advanced
Analysis Workshop | May 12**

We offer the Virtual PLA 3.0 Super User Training as a 2-day training event for a small group. The small-group setting allows us to customize the training agenda to the individual requirements of the participants and to answer your specific questions.

To dive even deeper into the statistical analysis of your bioassays, we recommend that you also take the subsequent virtual PLA 3.0 Advanced Analysis Workshop.

You will learn how to use the specific analytical capabilities of the Biological Assay Package within PLA 3.0. This will also give you the opportunity to discuss your questions about PLA 3.0 directly with your trainer Dr. Ralf Stegmann, CEO and intellectual father of the PLA 3.0 software.

Best regards
Mathias von Gellhorn
