[Did you know...?](#)

Dear Max,

Did you know that you can book virtual trainings and workshops in every time zone?

Did you know that we limit the number of participants to ensure a highly productive working atmosphere in our small-group setting?

Did you know what others say about our trainings and workshops?

"The Super User Training provided a thorough overview of the new system in an easy to understand manner. Dr. Stegmann tailored the training to audience requirements, making it relevant, interesting and worthwhile. I will be able to use this knowledge to fully optimize how we use the software. This will be very beneficial for our laboratory. Thank you!" - Katherine Niedzwiecki -

"The training was very interactive, the discussions and Ralf's presentations were very helpful for us to learn the power of PLA 3.0 as well as to clarify some misunderstandings about the system and sample suitability assessments. I believe this was very helpful for scientists who don't have extensive training on statistics to understand better how to use PLA 3.0 for their relative potency data processing. Thanks again for a very useful training session." - Jin Y., Genocea Biosciences -

Don't miss out on this opportunity to upgrade your PLA 3.0 skills notably.
